DETAILED ACTION

Priority

The instant application is entitled to the priority date under 35 U.S.C. § 119 in view of the certified copies of the priority documents filed in parent Application No. 08/909,728, filed on 12 August 1997 and the translations filed in parent Application No. 09/524,589, filed on 14 March 2000.

Drawings

The original drawings received on 22 December 2003 are accepted by the Examiner.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 6,395,660. Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping ranges have been held to establish *prima facie* obviousness. See MPEP 2144.05.

Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,333,287.

Art Unit: 1755

Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping ranges have been held to establish *prima facie* obviousness. See MPEP 2144.05.

Claims 1-20 are directed to an invention not patentably distinct from claims 1-7 of commonly assigned 6,333,287. Specifically, the compositional ranges and property ranges overlap. Overlapping ranges have been held to establish *prima facie* obviousness. See MPEP 2144.05.

Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 6,841,494. Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping ranges have been held to establish *prima facie* obviousness. See MPEP 2144.05.

Claims 1-20 are directed to an invention not patentably distinct from claims 1-14 of commonly assigned 6,841,494. Specifically, the compositional ranges and property ranges overlap. Overlapping ranges have been held to establish *prima facie* obviousness. See MPEP 2144.05.

The U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP § 2302). Commonly assigned 6,333,287 and 6,841,494, discussed above, would form the basis for a rejection of the noted claims under 35 U.S.C. 103(a) if the commonly assigned case qualifies as prior art under 35 U.S.C. 102(f) or (g) and the conflicting inventions were not commonly owned at the time the invention in this application was made. In order for the examiner to resolve this issue, the assignee is required under 35 U.S.C. 103(c) and 37 CFR 1.78(c) to either show that the conflicting inventions were commonly owned at the time the invention in this application was made or to name the prior

Art Unit: 1755

inventor of the conflicting subject matter. Failure to comply with this requirement will result in a holding of abandonment of the application.

A showing that the inventions were commonly owned at the time the invention in this application was made will preclude a rejection under 35 U.S.C. 103(a) based upon the commonly assigned case as a reference under 35 U.S.C. 102(f) or (g), or 35 U.S.C. 102(e) for applications filed on or after November 29, 1999.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth A. Bolden whose telephone number is 571-272-1363. The examiner can normally be reached on 10 am to 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
